Pricing Psychology Checklist

COGNITIVE BIASES TO LEVERAGE

- [ ] **Anchoring:** Show enterprise price first ($499) to make Pro ($99) seem cheap
- [ ] **Decoy Effect:** Make middle tier obviously best value
- [ ] **Loss Aversion:** "Save $X per month" vs "Pay $X more"
- [ ] **Social Proof:** "Most popular" badge on preferred tier
- [ ] **Scarcity:** "Only 10 spots at this price"
- [ ] **Urgency:** "Price increases in X days"

PRICE DISPLAY OPTIMIZATION

- [ ] Remove currency symbol ($29 vs $29.00)
- [ ] Use smaller font for cents
- [ ] Show per-day cost for expensive plans ("Just $3/day")
- [ ] Compare to familiar expense ("Less than a coffee")
- [ ] Highlight savings on annual plan
- [ ] Show value created, not cost

TRUST SIGNALS

- [ ] Money-back guarantee badge
- [ ] Security badges (SSL, Stripe)
- [ ] Customer count ("Join 500+ users")
- [ ] Testimonials near pricing
- [ ] "No credit card required" for trials
